

Maple Hall Academy's response to the COVID-19 pandemic is focused on providing and maintaining a safe and healthy campus for the safety of our staff, students, their families, and the community. In support of this response, Maple Hall Academy is now requiring all staff to have a COVID-19 vaccination as a condition of employment. Staff may request a medical or religious exemption, but anyone approved for the exemption will be subject to daily symptom monitoring, continued masking, and other protocols applicable to those who have not been vaccinated.

From the onset of the pandemic, the safety of the broader Maple Hall Academy community has been our shared responsibility. This has never been more true.

Vaccination is the best way to protect yourself and your loved ones from serious illness related to COVID-19, and it is the only way that we will bring an end to this pandemic. We are grateful to the thousands in our community who have already taken this step, and we want to make every effort to support those who have not yet gotten vaccinated.
